PROFESSIONAL SUMMARY

Software Engineering student graduating May 2027 with project experience in React, Java, Spring Boot, and Unity/C#. Seeking software development opportunities to apply programming, troubleshooting, and collaboration skills.

EDUCATION

Kennesaw State University | Kennesaw, GA

Bachelor of Science in Software Engineering | Expected May 2027 | GPA: 3.0

Relevant coursework: Data Structures, Databases, Programming and Problem Solving, User-Centered Design

TECHNICAL SKILLS

Languages: Java, C#, Python, JavaScript, SQL, HTML, CSS

Frameworks and Databases: React, Spring Boot, MySQL, JDBC

Tools: Git, GitHub, Docker, Vite, Unity, VS Code

Technical Support: Windows, hardware and software troubleshooting, incident documentation

PROJECTS

TravelPal | React, Vite, Google Maps Platform

GitHub | Live Demo

- Built a responsive travel discovery application for exploring restaurants, hotels, and attractions.
- Integrated Google Maps Platform and deployed the application to GitHub Pages.

Task Management Application | Java, Spring Boot, Docker

GitHub

- Developed a task management application with functionality to add, edit, and delete tasks.

ZombieEscape | Unity, C#

GitHub

- Co-developed a mobile endless runner survival game with a classmate for a semester project.
- Programmed player controls and integrated game systems into the shared Unity project.

EXPERIENCE

Data Assistant | Hall's Bookstore | Snellville, GA | Jan 2024 – May 2024

- Maintained customer and order records in spreadsheets and databases; verified and organized information for retrieval.
- Assisted customers by phone and email with product information, order updates, and support.

Student Assistant | Kennesaw State University | Kennesaw, GA | Aug 2020 – Oct 2020

- Provided computer lab support to students and staff, troubleshooting hardware and software issues.
- Documented reported issues and troubleshooting steps in the university ticketing system and monitored lab equipment.
